Shipping Point
ADAMS RUN, S. C.

Post Office
OSBORN, S. C.

Take U. S. Highway 17 to Intersection State Highway 174. One Quarter Mile South to Nursery.

TERMS OF BUSINESS

Cash or satisfactory reference must accompany all orders for immediate shipment. On orders booked for future delivery, 25% deposit with the order and balance due when shipment is made.

We can ship by Freight, Express, or by Boat. Our shipping point is Adams Run, S. C. Boat shipments from Charleston, S. C.

SUBSTITUTION

We will not substitute unless customer requests.

CLAIMS

Our liability ceases upon delivery to carrier of nursery stock, properly packed, and accepted by public carrier.

Should there be any errors in making up the order, claim must be made within 10 days from date of receipt of shipment. We will not be liable for more than the purchase price of the plants.

QUALITY STOCK

We pride ourselves on the healthy, vigorous plants that we grow. We are very careful not to send out stock unless we are certain it is true to name.

GRADING OF STOCK

Camellia Japonicas are graded as to height. Plants 12" high to 17" would be graded as 12"-18", etc.

Azaleas are graded as to the diameter of the plant across the top. Plants 4" wide and not over six inches, will be 4"x6".

CULTURAL INFORMATION

HELPS AND HINTS FOR SUCCESSFULLY GROWING CAMELLIAS AND AZALEAS

Camellia Japonica can successfully be transplanted from early September through March.

Azaleas can be transplanted the year around without injury. However, the best time is before they come into bloom, that is September through February.

SOILS PREFERRED

Good drainage is necessary. They should not be planted where water stands for long periods. A bed 12"x18" deep, of black fresh water pond muck is ideal, to this add well-rotted dairy fertilizer, or Azalea Special. Cottonseed meal mixed with the muck is very beneficial. However, do not use cottonseed meal as a top dressing unless thoroughly washed in with the hose immediately. Cottonseed meal will burn if not dissolved with water, injuring the roots of Azaleas.

INSECT AND DISEASE CONTROL

Camellias are attacked by several species of Scale insects. If the leaves on Camellias are spotted and streaked yellow, this is usually caused by Scale on the underside of the leaves. They should be sprayed with Nursery Volk, one part to 50 parts water. Spraying should be done in the Spring or early Summer. Spray from the underside so that all of the leaves are covered with spray. A WARNING: Do not spray Camellias in late Fall or Winter, a sudden cold spell will often kill plants that have just been sprayed.

There is also a fungus disease known as Formopsis. This disease attacks the stem and branches of Camellias. It is apparent by branches shriveling and dying off, usually during the Summer months. To control, spray with Bordeaux Mixture before new growth starts, 8 pounds Bordeaux to 50 gallons of water; to this add 1¼ pounds Kayso, This will cling to the branches for months, preventing the spread of this disease.

Red spider attacks both Camellias and Azaleas. It is apparent by dropping of many leaves on Azaleas. Camellia leaves become rusty brown in color. Control with S. A. T. Dust Sulphur Dust, Arsenate of Lead and Tobacco Dust, 8 pounds Sulphur, 1 pound Arsenate of Lead, 1 pound Tobacco Dust. Dust on early in the morning before the dew dries on the foliage. Dust from the underside of the leaves.

GENERAL CULTURE HINTS

Camellias and Azaleas thrive under the same conditions and culture. Keep them uniformly moist at all times. Do not drown them nor let them dry out completely. Success or failure will depend on the soil that you plant them in. Be liberal with good soil and fertilizer. Keep Scale and Red Spider under control at all times. Prune to keep the plants shapely. This should be done in Spring and Summer, not later than August 1st.

They will thrive either in partial shade or full sun. However, those planted in full sun must be kept mulched and properly watered. Kurume Azaleas will bloom much more profusely in dense shade than the Indica Azaleas. Azaleas and Camellias will bloom more profusely if planted in full sun. However, the flowers will fade and will not last as long as those planted in partial shade. Then, too, those in full sun will sometimes be injured by frost, while those in partial shade will have protection from the cold.

In conclusion, we urge you to plant Camellias and Azaleas. They are easy to grow, their profusion of bloom in the Winter and Spring is a constant joy to those who have these most popular Southern shrubs.

RARE CAMELLIAS

Group I

Admiral Nimitz (Kishu Tsukasa)—New variety by Overlook. Very fine pink blossom resembling Laurel leaf; sometimes variegated. Grafts only.

Daybreak—Soft pink similar to Debutante. Late. Fine. All sizes.

Donkelaari—Exquisite flower. Semi-double red and white. The true form. Special prices. 8"-12" and Grafts.

Donkelaari Eugene Lize—Peony form sport of Donkelaari. Same coloring. Exquisite form of color. Special price. 8"-12" and Grafts.

Dr. Shepherd—Huge semi-double, loose peony, dark red, marbled white, forming a mass of golden stamens in center. Rounded, dull green foliage. Slow, upright growth. Mid-season to late bloomer. This outstanding variety is very difficult to propagate. Grafts only.

Duchess of Sutherland—Finest of all white. Large semi-double bloom. Exquisite formation. All sizes.

Eleanor Hagood—Medium size. Regular. Delicate, pale pink. When fully open has few stamens in center. Dull, green foliage. Upright growth. Late bloomer. Limited. Grafts. 2 and 3-year.

Elinor of Fair Oaks—Variegated Vedrine. Very rare. Special prices. 12"-15".

Elizabeth Arden—Medium to large, semi-double white, striped rose pink. Sports to solid pink. All blooms opening with a perfect rosebud center. Long, curved, narrow, dark green foliage. Symmetrical, upright growth. Very hardy bloomer. Late. Grafts only.

Elizabeth Boardman—This is considered to be the best white seedling to come from Magnolia Gardens. Very large, semi-double, white with golden stamens intermixed in center. Rounded, light green foliage. Upright growth. Grafts.

Elizabeth Grandy (Margaret Higdon)—Large, semi-double pink bloom, fading to almost white around edges of petals, with stamens intermixed. Large foliage somewhat serrated. 12 to 18-in. and 18 to 24-in. grafts.

Firebrand—One of our hardiest bloomers—ignores cold. Large, semi-double, scarlet red flowers. Conspicuous golden stamens in center. Symmetrical upright growth. Free bloomer, starting in December, continuing through winter. 12"-15" own root.

Glen 40—Beautiful, large, deep flower of very dark red. Slow grower but one of the best double red Camellias 12 to 18-in. and 8 to 24-in. grafts.

H. A. Downing—Large and beautiful blood red. To 18"-24".

Imura, White—A hybrid from Alabama, semi-double snow white, flower 5½" to 6" in diameter, with yellow stamens in center, long dark green narrow foliage. 12"-15" and Grafts. 2'-3' Grafts.

Lady Mary Cromartie—Large semi-double, deep rose-pink bloom of loose construction; stamens intermixed in petals. Large light green foliage and good grower. All sizes to 4'.

La Reine Variegated — Beautiful, semi-double flower 5 to 6 inches in diameter, deep pink to red, blotched with white. Very attractive and outstanding Camellia. 12 to 18-in.

Lotus—This is truly the finest white Camellia we know. Extremely large lotus type flowers, remaining slightly cup-shaped when fully opened, with a cluster of golden yellow stamens in the center; dark green leaves; mid-season to late; a very good grower. Special price. Grafts only.

Magnoliaflora — Magnificent semi-double pink. Very rare. Special prices. 10"-12", 12"-15" and grafts.

Margaret Walker — Large, semi-double double white, striped pink, loose petals with a few stamens in center. Dark, narrow green foliage. Upright growth. Mid-season to late. All sizes.

Mrs. Charles Simons—A large, semi-double white, loose construction, stamens intermixed. Light green, heavily veined foliage. Symmetrical, fast grower. Mid-season bloomer. All sizes.

Paeoniaeflora—An extremely large, white, peony-type bloom speckled with pink—sometimes they appear solid pink and some half pink and half white. A truly outstanding Camellia is this variety which expands some 5 to 6 inches across. Round, deep green foliage. Strong, upright growth and very free-flowering from early to mid-season. 12"-15" only.

Rev. John Bennet—Semi-double, showing stamens in the center, salmon-pink with beautiful veined petals, large flower; open growth, good bloomer. All sizes to 4'.

No. 113 Tea Garden—Large, semi-double rose pink with creped edge petals. Long, pointed green foliage, slow upright grower. Free mid-season bloomer. All sizes to 6'.

September Morn—Japanese importation. Very early bloomer. Flower resembles that of Chandleri Elegans. 2-yr. Grafts only.

Vedrine—Semi-double red, yellow stamens. Large flower, 8-12 in. to 30-36 in.

Victor Emanuel 2d (Blood of China)—It is impossible to describe this variety to do justice to its beauty. Large peony form of the most dazzling red; form of the flowers is exquisite. Dark green foliage, medium fast grower, mid-season bloomer. To 18"-24".

White Diakagura—Imported variety from Japan. A flower somewhat resembling Alba Superba. Very fine. Grafts only.

RARE CAMELLIAS

Group II

Alba Superba—Large semi-double white, showing stamens in center of bloom. Mid-season, free bloomer while young; vigorous spreading growth, very large deep green glossy foliage; a very fine Camellia. From Magnolia Gardens. To 4'.

Apple Blossom—Single. Apple blossom odor and coloring. Very fine. To 6'.

Akebono—A semi-double salmon pink flower, exquisite formation, petals stand apart. Dark green, glossy foliage, bushy growth. Mid-season flowering. To 5'.

Akebeono Variegated—Same as above, except the ground color is white with pink stripes. To 4'.

Arajishi—Full peoniform, deep pink to red; very early. 8"-12".

Cardinal Richelieu—Large, semi-double dark red, irregular construction, stamens intermixed. Mid-season to late. 24"-30".

Catherine Cathcart—Late flowering full double pink marbled with white. Round light green foliage, slow growth. 24"-30".

Christine Lee—A most beautiful new variety. Slow compact growth. Begins flowering when quite small, having a pleasing semi-double light pink flower similar to Grandiflora Rosea (Empress). 12"-18".

C. M. Hovey—A full double dark red marbled and speckled with snow white. Flower is 4" to 5" in diameter, very large petals, slow bushy grower, large long dull green foliage. All sizes.

Collettie Mocolata—A peony form flower, blood red and marbled with snow white. Large outer guard petals, round, deep green leaves. Very slow growth. Low and flat. We believe this to be the finest peony form variegated Camellia. To 30".

Colonel Firey—Full double, brilliant red, very symmetrical; late; beautiful foliage; rapid growth; one of the finest Camellias. To 36".

Cup of Beauty (Tassee de Beau)—Semi-double, pink. As blooms begin to open the outside petals with the very tight center bud resemble a cup and saucer. This center bud opens later, showing quantities of stamens. Compact grower. To 36".

Dante—An imbricated pure white form with golden stamens at the base of each petal. This variety may be best described as of medium size, measuring 4 inches in diameter. A low, spreading grower. 12"-15" only.

Debutante—Peonyform—An exquisite shade of delicate pink. Vigorous, fine, distinctive foliage. Very early. Keeps blooms exceptionally well. The best peoniform and one of the loveliest pinks. Excellent for cut flowers and pot culture. To 5'.

Derebyana—A double red of rosebud form when first opening, when full open showing golden stamens among inner petals, flowers 4"-4½" in diameter, dark green, glossy foliage, bushy, good grower, free flowering in mid-season. To 6'.

Empress—An immense semi-double deep pink flower with golden stamens in center, glossy deep green foliage. Tall, slow growth. Early flowering. Rare and very desirable. To 24"-30".

Emperor of Russia—Very large, brilliant red flowers of peony form, golden stamens among inner twisted petals, flower appears to be four or five in one. Dark green foliage. Slow, bushy growth. To 12"-15" and 15"-18".

Ethington White — Large semi-double white, petals tissue-paper like texture. Mid-season bloomer, tall, vigorous grower, dark green foliage. To 30"-36".

Fanny Bollis—Very large semi-double dark red variegated with white. Golden stamens in center of flower, large dark green leaves, medium growth, mid-season bloomer. To 42".

Gerodoni Franchetti—Large peony form white blossoms. Flecks of pink. 18"-24".

General Washington — Semi-double white with occasional deep pink dots or markings. White always predominates. To 4'-5'.

Gigantea—Immense semi-double deep red strip and marbled with white. Late flowering. Immense dark green leaves, tall, open growth. To 42".

Governor Mouton—Late flowering, peony form, deep red, marbled white, medium growth, dark leaves. To 5'.

His Majesty—Medium to large, semi-double red, loose construction, stamens in center. Large, crinkly, dark green foliage. Symmetrical growth. Mid-season bloomer. 3'.

Kumaaska—Large, very fine peony form flowers of deep pink. Very early bloomer. Glossy green foliage. Tall, slow growth. One of the finest Camellias. 5'.

JENKINS' CAMELLIA GARDENS

Lady Van Sitta Variegata—One of the most beautiful of variegated Camellias. Semi-double flower 3½" to 4" in diameter, often reaches 5". To 4'.

Marchioness of Exeter—Peoniform, like pink and white. Oftimes solid pink. 4'.

Mathotiana, Rubra—An immense double deep red flower when fully open, some show short stamens in center of bloom, dull green foliage. Fast tall growth. Mid-season. To 6'.

Mikenejaku—A very large semi-double rose, pink marble with white. Petals frilled and twisted, later mixed with gold stamens. Dull green foliage, slow growth. 18"-24".

Monjisu—(California Donkelaari) — Semi-double fairly symmetrical; a very startling shade of red. May be either solid red or have white blotches. 12"-18".

Pink Herme—Like Herme except solid pink. To 18"-24".

Princess Bachinachi—Full double dark red flowers of good size marbled with white. The flowers last for many days in perfect condition on the bush. Tall, fast growth. Large round glossy foliage. To 5'.

Principessa Clotilda—(II Tramento)—Imbricated, deep pink mottled white. 18"-24".

Pink Star—Semi-double, bright rose-pink flowers of delicate coloring. Outer row of petals roundly pointed, giving star-like appearance. Habit of growth compact and upright. Mid-season. Very desirable. 18"-24".

Rev. John G. Drayton—A loose peony form of pleasing deep pink color; petals are wavy intermixed with golden stamens; tall, angular growth; light green foliage, early bloomer. To 36".

Snow Drift—A very beautiful, large, semi-double, pure white. Very showy. 36".

Speciosa (Giante de Battailes)—Peoniform, crimson and white. This Camellia is a Prof. Sargent variegated. To 36".

Sweeti Vrea—Large, loose peony form flower. Flesh pink, streaked rose, dull green foliage, slow growth. Mid-season bloomer. To 18"-24".

Triphosa—Large semi-double white. Crepe De Chine petals. One of best whites. Blooms in coldest weather. Very rare. Sizes 18"-24".

Variegated Daikakura—Large, full peony form flowers; deep pink marbled with white. A very early bloomer. Slow, tall growth. Large, dull green foliage. 12"-15".

Vallevareda—Very symmetrical, deep pink, outer petals shading to light pink, inner petals extremely double. 24"-50".

NEW RARE CAMELLIA JAPONICA

Davis' Rose Dawn—A very beautiful rose-pink Camellia of large size, introduced by one of our local nurserymen. Very vigorous grower with dark green foliage. Much in demand. To 30".

Duncan Bell (Mrs. Mena Ladnier)—A large peony-form flower named for the owner of the famous Bellingrath Gardens. Beautiful red flowers 5 to 6 inches in diameter. Very fast grower. 12 to 18-in. and 18 to 24-in. grafts.

General Wade Hampton—Magnificent loose red flower. Very large. One of the best new varieties.

Queen Bessie—Semi-double, 3½-4½ inches in diameter, very wavy large petals and numerous yellow stamens. Color: Clear white with faint flushes around the center presenting a very soft and delicate appearance. 12"-15" and 15"-18".

Victory White—Flower is semi-double, of the peony type, measuring 4-5 inches in diameter. Pure white in color. Numerous small petals intermixed with yellow stamens at the center. A very heavy bloomer at mid-season. 12"-15".

Smiling Beauty—The flower is semi-double, 3½-4½ inches in diameter, and has fourteen to sixteen obovate petals of a most pleasing and distinctive delicate pink which is slightly deeper in color than Magnolia Flora. 12"-15".

JENKINS' CAMELLIA GARDENS

St. Andre — Semi-double, generally loose peony shape. Very large, 5-6 inches across. Beautiful color of crimson-carmine; blooms late. The foliage is very large, thick, very dark green. 12"-15".

FINE CAMELLIA JAPONICA

Group No. 1—White

Alba Plena — An early flowering, full double white, light green foliage, medium growth. Will bloom for Christmas. Fine cut flower. To 9'.

Candidissima—Mid-season flowering, pure double white, medium size bloom, light green foliage. Splendid cut flower. Very slow growth. To 24"-30"

Purity—Late flowering, full double white, dark green foliage. Very slow growth. Free flowering. Splendid cut flowers. To 24"-30".

White Tri-Color—Pure white semi-double yellow stamens in center. Very fine. To 7'.

Group No. 1—Fine Camellias—Pink

Cameo Pink—A full double pink flower 3½"-4" in diameter, when fully open showing golden stamens in center, an extremely profuse bloomer in December and January, splendid cut flower variety. To 18"-24".

Celtic Rosea—Semi-double flesh pink, golden stamens in center, narrow light green leaves, slow growth. (An exquisite flower.) To 42".

Cheerfulness — Mid-season flowering, full double deep rose, profuse bloomer. Slow growth, small dark green leaves. To 36".

Haley's Monarch—An immense semi-double to peony form flower, light pink, large round, light green leaves; fast, tall growth, late bloomer. Very choice. To 7'.

Sacco Vera—Very early double pink, medium size flower. Dark green foliage, very slow growth. Good cut flower. 36".

Otome—Mid-season flowering, large, double pink, dark green foliage, slow growth. A splendid cut flower.

Pink Elizabeth—Fine shade of pink. Sport of Elizabeth. 12"-15".

Pink Perfection—An early flowering shell pink, full, double flower of medium size. Free bloomer, slow growth. One of the best for cut flowers. The most popular pink. To 7'.

Rubel Virginalis—A peony form flower with large outer guard petals, center filled with small petaloids, large, green, light leaves, late flowering. One of the most beautiful. 8'.

Stiles Perfection—Semi-double or loose peony pink and white, often solid. To 7'.

GROUP NO. 1—FINE CAMELLIAS

VARIEGATED

Chandler Elegans — Immense semi-double pink and white flower with golden stamens, very slow growth. Mid-season bloomer, dark green, long pointed leaves. To 5'.

Dainty—The single flower, 3 to 3½ inches in diameter, is bell shaped. Has five petals of soft pink and numerous yellow stamens. A tree loaded with blooms is a charming sight. 36".

Gunellie — Late flowering, very large deep rose peony form flower. Light green foliage. Slow, low, bushy growth. 36".

Countess of Orkney — Full double mid-season bloomer, striped with rose, dark twisted leaves, extremely slow growth. 30".

Gomez—A full peony form, salmon pink, spotted white and striped rose. Very bushy, upright grower, foliage light green, early flowering, is fragrant. 36".

Harlequin—Peony form flowers, white and striped with pink; some pure pink flowers, very large, round light green leaves; wide, open growth, late flowering. Very choice. 36".

Herme—Early peony form flower, white and pink striped, large, fragrant flowers. Light foliage. Slow growth. 48".

Horkan—Semi-double white striped with red, pink and rose, some flowers solid colors. Tall, angular growth, dull green foliage; very late flowering. 36" and 8'.

Kellingtonia — Peony form, dark red, spotted white, golden stamens, in center of bloom, slow growth; mid-season, dark green glossy leaves. 36".

JENKINS' CAMELLIA GARDENS

GROUP NO. 1—FINE CAMELLIAS

Red

Lady Vansetti—Late flowering, large semi-double red. Dark green, glossy leaves. Very slow growth.

Campbelli—Late flowering, full double dark red. Very large dark green foliage. Fast growth. Must be planted in the shade for best color.

Imperator—Peony form darkest red with golden stamens among petals, late flowering; tall, open growth, dull green twisted leaves. An outstanding fine Camellia.

Lady Sumarez—A peony form deep red flower of medium size; mid-season bloomer, bushy growth; large, deep green round foliage.

Prince Eugene Napoleon—Full double deep blood red flowers of medium size; blooms for Christmas. Large, glossy dark green foliage; tall, open growth. Splendid cut flowers.

Professor Sargent—Bomb peony form flowers of large size; early flowerings; dark green, round foliage; tall, fast growth. This variety should be planted in full sun for maximum bloom development.

CAMELLIA JAPONICA, STANDARD VARIETIES

Group No. 2—White

Churchwell—Late flowering, pure double white; bushy growth, light green foliage, a good cut flower variety.

Duchess De Orleans—Full double white, occasional streak of rose in some flowers; late flowering; tall, upright growth.

Elizabeth -- Full double white predominating, some pink flowers occasionally; late flowering, medium size flower; good cut flower, wide bushy growth, light green foliage.

Noblissima—An early flowering pure white peony form with yellow stamens, light green foliage; tall, upright growth.

Group No. 2—Pink

Beauty De Nantes — Loose peony form, clear, pink medium size flower, golden stamens among twisted petals, dark green glossy foliage, compact, fast growth, mid-season bloomer.

Cliviana—Semi-double light pink flower of large size; round, dull green foliage, mid-season bloomer; very fast, upright growth.

Lady Marion—Large bright pink, double flowers and distinct, large, rather rounded foliage. One of the best of its class.

Preston Rose—Peony form, deep pink flowers, light green leaves, tall growth, late flowering.

Sacco Rose — Mid-season flowering, full double pink, medium size bloom, splendid cut flowers, small deep green foliage, tall growth.

Theresa Mossine—Full double deep pink flowers, late flowering, tall upright growth; narrow, deep green foliage.

Group No. 2—Red

Brown's Red—Probably darkest red Camellia of semi-double form, with dark green leaves.

Glory De Nantes—Very large loose peony to semi-double flowers, rose red; large, dark green leaves; tall, fast growth.

Jarvis Red—Semi-double blood-red flowers of good size, with golden stamens among the petals or in solid cluster of flowers, glossy dark green foliage; very wide, fast growth, late flowering. Very hardy and stands much sun.

Group No. 2

VARIEGATED STANDARD VARIETIES

Concordia—Full peony form flowers of medium size, deep pink marbled white, fragrant, dull green leaves; bushy, tall growth, mid-season flowering.

Duc De Orleans—Large loose peony form flowers; soft, fleshy pink, striped and speckled with rose, golden stamens among twisted petals; very early flowering; can be depended to bloom for Christmas; large, round, deep green foliage; very fast bushy growth.

Madam Streakaloff—Peony form, rose pink flowers, streaked deep rose red; very late flowering; fast, bushy growth, light green leaves.

Meigs Variegated—Full double pink marbled with white, exquisite formation, long, glossy, light green leaves, wide, drooping growth; late flowering, very choice.

JENKINS' CAMELLIA GARDENS

Mrs. Abby Wilder—Semi-double white flowers, variegated pink, mid-season bloomer; dull green leaves, tall, fast growth.

Tri-Colored Sieboldi—A semi-double medium size flower; white, red, pink striped and solid; dark green twisted leaves; very early bloomer.

T. K. Variegated — Semi-double white flowers, striped pink, rose and lavender; some flowers solid, purple and pink. This variety is very unusual with its many color shadings. A large plant in full bloom reminds one of Japanese Art. Highly recommended. Is mid-season bloomer; tall, fast growth; leaves dull green.

INDICA AZALEAS

WHITE INDICA AZALEAS

Indica Alba—Tall, fast growing, pure white, leaves dull green, mid-season.

Fielders White—Slow growing, bushy, large single flowers, the best White Azalea, mid-season.

Formosa—Greatest of all Azaleas. Large, purplish pink flowers; bush grows large and shapely. Darkest green foliage of all Azaleas. Easy to grow. Late bloomer. All sizes.

Phoenicia—Similar in color to Formosa, but bush grows very compact and rounded. Late. All sizes.

PINK INDICA AZALEAS

Elegans—Tall, fast growing, clear pink, early flowering, light green leaves.

George Franc—Slow growing; bushy; large salmon pink, flowers with rose throat, early.

Pride of Summerville—Tall, salmon pink, excellent.

RED INDICA AZALEAS

Dixie—This salmon-red is one of the finest of the Indica Azaleas. Mid-season. This lovely Azalea is one of the hardiest and most satisfactory of all. 12 to 15 in., 15 to 18 in.

Geo. L. Taber—Our finest variegated Azalea. Blush-pink with markings of deeper pink and red. Tall, large, late. 8 to 12 in., 12 to 15 in.

Iveryana—The favorite variegated Azalea. Large, white flowers, striped pink and orange. Of spreading habit; late. 8 to 12 in., 12 to 15 in.

Lawsal—Bright salmon-pink. Tall, bushy grower; late. We highly recommend Lawsal as one of the hardiest and most beautiful of Azaleas. All sizes.

Duc de Rohan — Medium-sized; salmon-pink. Early. All sizes.

Elegans Superba (Pride of Mobile)—Low, bushy growing, watermelon red flowers of large size, mid-season, dull green leaves.

Harry Weitchi—Slow grower, late, brilliant rose with crinkled petals.

President Clay—Fast upright grower with orange red flowers. Blooms in mid-season and is good kind.

Snow—Medium growth, bushy, hose in hose, pure white flowers, glossy deep green leaves, mid-season bloomer, profuse bloomer.

PINK KURUME AZALEAS

Pink Pearl—Tall, fast growth, hose in hose, fringed flowers, pale pink fading to white in center of flowers; very profuse flowering; early; light green glossy leaves.

Day Break — Tall, fast upright growth, single deep pink flowers, mid-season bloomer; small, dull green leaves; very hardy.

Hortensia—Low, bushy growth, hose in hose, light pink flowers of large size, glossy green leaves.

Coral Bells—Tall, fast growth, hose in hose; small deep pink flowers; very profuse; small, glossy deep green leaves; the best pink Kurume Azalea, early flowering.

Peach Blow—A fine Kurume with flowers of light peach-blossom-pink. One of the fastest of the Kurume. Tall, mid-season. All sizes.

***Lorraine**—Large, deep pink Hexe-like flowers. Late, 6"-8", 8"-10".

Hinomoyo—Slow open growth; single, clear, pink flowers of large size; small, dull green leaves; very hardy.

Cherry Blossom—Tall, open growth, hose in hose, cherry blossom color flowers; large, round, dull green leaves; very late flowering, profuse.

ORANGE KURUME AZALEAS

Orange Beauty—Slow, bushy low growth, single deep orange flowers; small, glossy leaves, mid-season bloomer.

VARIEGATED KURUME AZALEAS

Peach Blow—Bushy, low growth, single white striped pink flowers; glossy light green leaves, mid-season to early bloomer.

Double Apple Blossom—Bushy, slow growth, hose in hose, apple blossom color flowers; large, dull, green leaves; profuse late flowering.

Sweetheart Supreme—One of the loveliest of double-flowering Azaleas; light rose-pink. 10 to 12 in. to 18 to 24 in.

RED KURUME AZALEAS

Hinodegeri—Low, bushy, fast growth, single deep red flowers of large size; very profuse, round glossy leaves; hardy, mid-season.

Christmas Cheer — Slow growth; wide, bushy, hose in hose flowers of brightest red; small, glossy green leaves, mid-season.

Carmine Prince—Tall, open growth, single deep red flowers of large size; large, glossy, dark green leaves, mid-season.

Hexe—Dwarf, low, bushy growth; large hose in hose, deep red flowers; dull, green leaves, mid-season to late; very hardy.

SALMON KURUME AZALEAS

Salmon Beauty—Bushy growth, large hose in hose, deep salmon flowers; large, glossy dark green leaves, early to mid-season bloomer; very hardy, a profuse bloomer.

Brides Maid—Fast, tall growth, single deep salmon flowers in large trusses; glossy, deep green leaves; mid-season bloomer; hardy.

Salmon Queen—Fast, tall growth, single soft salmon flowers; light green, glossy leaves; early flowering.

Gardenia Florida—Cape Jasmine. Sweet-scented white flowers. Well known and very popular.

	Each
18 to 24 in. -----	\$2.00
2 to 3 ft. -----	3.50

G., Mystery—Very fast grower with larger blooms than the preceding. Each

18 to 24 in. -----	\$2.50
2 to 3 ft. -----	4.00

Ilex (Holly)—Our Hollies are grown from cuttings or grafted from heavy bearing specimens, insuring handsome plants. Dug with good ball of earth.

I. Cornuta Burfordi (Burford's Holly).—This variety has few or no spines and is of more rapid growth than *I. cornuta*. Very dark, shiny green foliage, which holds its lustrous color throughout coldest weather. Large, red berries all winter.

I. Cornuta Femina—Like *I. cornuta Burfordi* but has leaves of five spines.

I. Crenata (Japanese Holly).—4 ft. An evergreen shrub, 4 feet high, with oval, crenate leaves. Black berries. Good for low plantings, such as around foundations. Rather slow in growth and perfectly hardy.

Prices of *Ilex cornuta Burfordi*, *femina* and *crenata* Each 10

18 to 24 in., balled & burlapped -----	\$3.00	\$27.50
2 to 3 ft., balled & burlapped -----	5.00	40.00
3 to 4 ft., balled & burlapped -----	7.50	60.00

I. Dahoon (Dahoon Holly). A fine native Holly, making a small tree. Narrow, glossy leaves.

	Each
2 to 3 ft. -----	\$ 3.50
3 to 4 ft. -----	5.00
4 to 5 ft. -----	7.50
5 to 6 ft. -----	10.00

Ilex Opaca (American Tree Holly).—All of our plants of this well-known native Holly are grown by grafting from heavy bearing plants. Choice specimens. Each

4 to 5 ft., balled & burlapped -----	\$ 7.50
5 to 6 ft., balled & burlapped -----	10.00

JENKINS' CAMELLIA GARDENS

I. Opaca-Dahoon Hybrid—A new Holly, our favorite of them all. Foliage like Opaca, but some lighter and large red berries like Dahoon; bears on small plants. Those who love Hollies should plant one or more of this choice variety. Prices same as I. Dahoon

Jasminum Primulinum—A graceful, drooping evergreen with dark green leaves. Large yellow flowers in spring. Each 10

2-yr., very compact -----	\$0.75	\$7.00
3-yr., very compact -----	1.00	9.00

Ligustrum Lucidum (Wax-Leaf Privet). Dark, glossy foliage. Ours is a very select strain of this variety. The most useful of all Privets in landscape plantings. Each 10

12 to 18 in., balled & burlapped -----	\$1.00	9.50
18 to 24 in., balled & burlapped -----	2.00	17.50
2 to 3 ft., balled & burlapped -----	3.50	32.50

Magnolia Grandiflora (Southern Magnolia). The grandest of all our native broad-leaved evergreens, making a stately tree with large leaves and conspicuous, large, fragrant white flowers. Each

3 to 4 ft., bare roots -----	\$3.00	
4 to 5 ft., bare roots -----	5.00	

Balled and burlapped, double above prices.

Nandina Domestica—A striking plant in winter when the normally green leaves turn a brilliant red. Our Nandinas are the superior large-leaf varieties and bear large clusters of red berries. Extremely valuable in landscape effects, growing in full sun or much shade.

Stocky Plants	Each	10
8 to 12 in., bare root -----	\$0.75	\$7.00
12 to 18 in., bare root -----	1.00	9.00
18 to 24 in., balled & burlapped -----	2.00	17.50
2 to 3 ft., balled & burlapped -----	3.00	27.50

Osmanthus (Tea Olive). The well-known Sweet Olive of Southern gardens. **O. fragrans** (white-flowering) and **O. fragrans aurea** (yellow-flowering),

Prices of Osmanthus	Each	
2 to 3 ft., from field -----	\$3.50	
3 to 4 ft., from field -----	5.00	
4 to 6 ft., from field -----	7.50	

Photinia Glabra.—New growth of this plant is vivid red and very attractive among other evergreens during the growing season. Should be pruned often to induce new growth.

	Each	10
18 to 24 in., balled & burlapped -----	\$2.00	\$17.50
2 to 3 ft. -----	3.50	30.00
3 to 4 ft. -----	5.00	

Photinia Serrulata.—Very desirable evergreen for foundation planting of shrubbery border. Dark green foliage, much of which turns varying shades of red in the fall.

	Each	10
18 to 24 in., balled & burlapped -----	\$2.00	\$17.50
2 to 3 ft., balled & burlapped -----	3.50	
3 to 4 ft., balled & burlapped -----	5.00	

PYRACANTHA

(Evergreen Hawthorn)

Pyracantha Formosana (Red Hawthorn).—One of the choicest of all evergreens for the South. Profusion of white flowers in summer and red berries in winter. Large, compact grower.

P. Lalandi (Upright Hawthorn).—A very useful evergreen. White flowers in late spring; orange-red berries in fall.

Prices of Pyracantha	Each	10
12 to 18 in., balled & burlapped -----	\$1.00	\$9.00
18 to 24 in., balled & burlapped -----	2.00	17.50
2 to 3 ft., balled & burlapped -----	3.50	30.00
3 to 4 ft., balled & burlapped -----	5.00	40.00
4 to 6 ft., balled & burlapped -----	7.50	70.00

Pittosporum Tobira (Tobira Pittosporum)—10 ft. A fine, compact-growing shrub with dark green leaves clustered at the ends of the branches. Flowers yellowish-white, very fragrant, produced the middle of April and last a long time. A splendid shrub for specimens or massing, and can be trimmed in fanciful shapes.

	Each	10
2 to 3 feet -----	\$2.50	-----
18 to 24 inches -----	1.50	-----
15 to 18 inches -----	1.00	\$8.50
12 to 15 inches -----	.75	6.50
